CHRISTOFLE
PARIS

Christofle shakes up the art of entertaining
with a new concept
that reflects its time: **MOOD Party.**

Four years after its creation, MOOD by Christofle has become a House icon. Now, the Christofle Studio continues to explore new forms of conviviality by adapting the MOOD to different styles of sharing.

From New York to Tokyo, Paris, London, Hong Kong, Shanghai and Los Angeles, the art of dining is becoming increasingly relaxed and informal. A silversmith since 1830, Christofle is committed to honoring a tradition of reflecting current lifestyles with refinement, chic and elegance.

MOOD Party was designed in this spirit: whether the moment is festive or charmingly casual, sweet or salty, this MOOD is specially conceived to enhance moments of sharing with family and friends.

Ideal for brunches, cocktails, and improvised snacks, the MOOD Party tray fits in anywhere, from tabletop to terrace, around the fireplace or on the lawn.

Fitted with two handles to make it easy and pleasurable to take anywhere, the tray features six compartments in Limoges porcelain of various sizes, a central bowl and a walnut presentation board. It can also accommodate MOOD Party, an innovative 24-piece set of silver-plated cutlery for six people, including butter knives, small spoons, two-tine forks and cocktail picks.

Like the tray, MOOD Party's casing is made of mirror-polished steel that enhances its design by giving it that characteristic pure, sober allure.

The MOOD Party casing is further embellished with Christofle's coat of arms.

MOOD Party and its companion tray also may be used independently. The MOOD Party is a veritable 2-in-1 that adapts to any occasion, perfect for presenting tapas, mezze, petits fours or sweets for tasting.

With MOOD Party, Christofle once again unveils a design in keeping with our times, bringing character and elegance to moments of sharing.
